

Major Disaster Declarations Pendleton County

Kentucky: By The Numbers
https://kybtn.mgcafe.uky.edu

Julie N. Zimmerman and Jeff Young, 2026

Between 2015 through September 2025 (not including COVID-19), Kentucky had 22 Major Disaster Declarations affecting counties all across the state. While 2025 had not ended yet when these data were accessed, during those 10 years, 2015 was the most active year with 4 Major Disaster Declarations. To learn more about a specific event, the “Disaster Number” provides a unique identifier that can be used in an online search.

There are several different types of disaster declarations. This issue of Kentucky: By the Numbers provides data on the number of “Major Disaster Declarations.” This type of declaration provides access to the widest array of resources. For more information, see “How a Disaster Gets Declared” at <https://www.fema.gov/disaster/how-declared>

Data Source

These data were compiled using the OpenFEMA Dataset: Disaster Declarations Summaries - v2 (Last Data Refresh: 09-29-2025). "This dataset lists all official FEMA Disaster Declarations, beginning with the first disaster declaration in 1953... This is raw, unedited data from FEMA's National Emergency Management Information System (NEMIS)." <https://www.fema.gov/openfema-data-page/disaster-declarations-summaries-v2>

Kentucky: By The Numbers is an Extension program in the Department of Community and Leadership Development at the University of Kentucky. For more information contact your local Cooperative Extension office or Dr. Julie N. Zimmerman, Professor of Rural Sociology, Department of Community and Leadership Development, 500 Garrigus Building, University of Kentucky, Lexington, KY 40546-0215. email: zimm@uky.edu. The entire series is online at <https://kybtn.mgcafe.uky.edu>
