Bourbon County

Julie N. Zimmerman
Rural Sociology, Department of Community and Leadership Development
December, 2012

Using local demographic patterns and trends in mortality, fertility, and migration, the Kentucky State Data Center produces population projections for counties in Kentucky. Additional projections are available including the projected median age and the projected number of persons per household.

To see a line graph with the projections in your county for every 5 years, visit the **Building Strong Families for Kentucky 2013** county profiles at http://hes.uky.edu/StrongFamilies

The Kentucky: By the Numbers Data Series provides county profiles developed to support local decision making. The entire series is available at http://www.ca.uky.edu/snarl
